### V1 (8)

1 Now, Who the fuck are you to judge me? |  
 2 Who the fuck are you to tell me what I can & can't do?/  
 3 Can you repeat the feats I'm achieving to rhymes and beats  
 4 **Or even conceive that I'll be competing still even when I'm deceased/**  
 5 Now beating me is easier than finding peace. | But niggas still criticize/  
 6 My work and my lines and my shirt down to the size  
 7 In a world of scouring eyes, and words compounded by lies/  
 8 **The artistry of lyricism I epitomize. v |**

### V2 (24)

1 It's overwhelming, cause there's so much to say and so much to change,  
 2 But for every rapper constantly bitching, I made a record that's honestly different/ |  
 3 Just watch the world scoff in the distance, and cynic's bark in resistance/  
 4 **And still, in its wake, this archetype's bound to mimicked/ |**  
 5 This is the new hip-hop, devoid of boundaries, gimmicks/  
 6 Or rigid genres, with no apologies given/  
 7 To solemnly sing aloud and then spit poly's without inhibition/  
 8 **In a world where courage is reprimanded, but cowardice isn't/ |**  
 9 The power to listen and learn, keeps me adaptive v/ |  
 10 A tribe fan that appreciated the classics,  
 11 But damn if I'm trapped in the past, I act to surpass what they crafted  
 12 **And still manage to travel the path on the maps that they drafted/**  
 13 And man, I'm rappin on behalf balance v/ |  
 14 The do it all MC, with the 2 long sleeves, and a passion for practical magic/  
 15 A tap of the wand, and I'm graphic - another tap, I'm the fastest,  
 16 **You tap again, and I'm chanting on a piano ballad/ |**  
 17 The preconceived notions get shattered |  
 18 Fuck mainstream & underground - is the shit any good? is what matters/  
 19 Why categorize? There's wack and there's nice/  
 20 **So, I put all that to the side and reset the standard for any cat that just asks for a mic/ |**  
 21 So with that in mind, Them niggas won't last after they've established their hype/  
 22 While mine's only added, more than half of my life/  
 23 And I'm last in a line of cats with divine talent - Don't ask for a sign/  
 24 **Answers will rise in the passage of time -**  
 Cause I'm the Archetype. |

### Chorus:

Cause I'm the archetype. v | Original as they come/ v  
 Ayo, they broke the fuckin mold when they made this one/ v  
 Said I'm the archetype, v | cause there can only be one/ v  
 The day intelligence sells, we'll leave the industry stunned. v
